Test Case: Booking.com Date Picker

Test Title: Verify Date Selection on Booking.com Search

Objective

To verify that a user can successfully select check-in and check-out dates using the Booking.com date picker calendar.

Application Under Test

URL: https://www.booking.com/

Note : Since this website is dynamic, some locators may change in the future. If that happens, the automation tests may fail and require updates.

Test Steps

Step #	Action	Expected Result
1	Open Chrome/Firefox/Safari browser and navigate to `https://www.booking.com/`	Booking.com homepage loads successfully
2	Observe if a sign-in banner/popup appears at the bottom of the screen	Sign-in banner is visible asking to sign in or dismiss
3	Click the **X** or **Dismiss** button on the sign-in banner	Sign-in banner disappears from the screen
4	Locate the search box labeled "Where are you going?"	Search box is visible and clickable
5	Click on the search box and type **"Chennai"**	Auto-suggestion dropdown appears with "Chennai" as one of the options
6	Click on "Chennai" from the auto-suggestion list	"Chennai" is populated in the search box
7	Click on the date picker field (shows "Check-in — Check-out")	Calendar/dropdown opens displaying current month

Step #	Action	Expected Result
8	In the calendar, navigate to **July 2026**	- July 2026 is displayed in the calendar header - All days of July 2026 are visible
9	Click on **July 25, 2026** in the calendar	- July 25, 2026 is highlighted as selected - Check-in date updates to "Jul 25" in the date field
10	In the calendar, navigate to **September 2026**	- September 2026 is displayed in the calendar header - All days of September 2026 are visible
11	Click on **September 30, 2026** in the calendar	- September 30, 2026 is highlighted as selected - Check-out date updates to "Sep 30" in the date field
12	Close the calendar (click outside or on the X)	Calendar closes and shows the selected dates

---

Expected Result (Overall)

- Both dates (July 25, 2026 and September 30, 2026) are successfully selected
- Date picker field displays both dates: "Jul 25 — Sep 30" or similar format
- The selected dates remain visible after closing the calendar

---

Test Data

Field	Value
Destination	Any City
Check-in Date	Any Future Date
Check-out Date	Any Future Date after Check-in Date
