Breakdown of the Pattern: MB$

Pattern Explanation

Pattern	Description
M	Matches the literal uppercase letter **M**.
B	Matches the literal uppercase letter **B**.
$	An anchor that asserts the position at the **very end of the string** (or before a trailing newline).

Examples of Matches

Input String	Result	Reason
500MB	☑ Match	Ends with MB.
1024MB	☑ Match	Ends with MB.
The file size is 250MB	☑ Match	The string ends with MB.

Examples of Non-Matches

Input String	Result	Reason
500MB file	✗ No Match	MB is not at the end of the string.
mb	✗ No Match	Regular expressions are case-sensitive; requires uppercase MB.
250 MB	✗ No Match	The string ends with a space, not B.
